The Gwinnett Medical Center (GMC) Nurse Extern program offers nursing students the opportunity to gain valuable clinical nursing knowledge and skills through temporary summer employment. The nurse extern program starts in May and ends in late July.

Nurse externs are placed in a variety of clinical areas per area availability, complemented by robust interactive classroom and patient simulation learning that will enhance transitioning into the future role of a nurse.

We hope you’ll come join us at GMC. As part of the GMC team, you will be taking a giant step forward in building your future professional nursing career.

For more information, email: Linda Horst, Nurse Extern Program Coordinator lhorst@gwinnetmedicalcenter.org

We wish you all the best in your nursing career!
